Statement on behalf of all Suffolk councils regarding Afghan refugees

Statement on behalf of all Suffolk councils.

“On Wednesday 18 August, the Government announced its new resettlement scheme for Afghan refugees. Whilst the full details are yet to be confirmed, it is crystal clear that the Government needs local authorities everywhere to step up and support this national effort.

“All councils in Suffolk are committed to this cause. We have already helped a small number of Afghan interpreters and their families to resettle in Suffolk, in addition to ongoing work to support unaccompanied asylum-seeking children and other refugees entering the UK. In the coming days and weeks, the district, borough and county councils will continue working with the Government to do what we can to aid vulnerable refugees.

“Times like this call for acts of humanity. Suffolk will play its part.”

Make one simple change today in a bid to tackle climate change

COP26 will bring into focus the need for us all to reduce our carbon emissions in order to slow climate change

A column by Councillor Richard Rout, Deputy Leader and Cabinet Member for Finance and Environment at Suffolk County Council.

In early November, the eyes of the world will be on the UK. Glasgow, to be exact.

This is when the COP26 conference takes places.

COP26 is the UN Climate Change Conference of the Parties. It will be a momentous event and I expect some significant decisions and agreements to be made, as the world continues to combat climate change and reduce its carbon emissions.

But how will an international event affect each of us in Suffolk? Although COP26 will be an event attended by Presidents and Prime Ministers, it will impact us all.

COP26 will bring into focus the need for us all to reduce our carbon emissions in order to slow climate change. This has been the message for a long time of course, but we must all be changing our behaviours and choosing to use less energy.

And I do mean all of us.

Global industry, national corporations and governments must lead the way to enable us all to make greener choices. But slowing climate change is everyone's responsibility, we each have a duty to tackle this situation and play our part.

Suffolk County Council has been addressing climate change challenge for many years, but we know that the organisation must be doing more and doing it more quickly. This is agreed across all Suffolk's authorities which is why, together, we have recently approved the Suffolk Climate Emergency Plan - a document to keep us accountable in our ambition to make Suffolk a carbon neutral county by 2030.

I'm proud of the work Suffolk County Council has been doing for several years now. We are planting trees and hedgerows. We are supporting businesses with advice and funding to reduce their carbon emissions. We are running schemes to reduce the cost of solar panels on homes. We are providing the infrastructure to encourage walking and cycling. We are providing greener ways to travel. We are installing electric vehicle charging points in rural areas. There is much, much more besides, but we are working hard to develop this work.

The www.greensuffolk.org website will be updated soon with these Suffolk events. I'd recommend it as a great place to start finding out more.

Suffolk targets devolution talks with Government

It was announced on August 17th that public sector leaders in Suffolk say they welcome early discussions with Ministers about a possible devolution deal for Suffolk.

In a joint letter sent to Rt Hon Robert Jenrick MP, the leaders of all of Suffolk's six councils and Police and Crime Commissioner Tim Passmore, said:

"Suffolk has already demonstrated its credibility as a place where Government will find strong and ambitious delivery partners.

"The Suffolk Public Sector Leaders (SPSL) group...has a track record of effective partnership working. These robust relationships enable more innovative ways of working, including exploring opportunities for devolution as part of a County Deal.

"Suffolk...is an ideal place to help Government demonstrate how levelling up can work in diverse geographies. Suffolk has a strong offer to make to Government and we would welcome early discussions with MHCLG Ministers to explore proposals for a County Deal ahead of the White Paper being published."

The Government wrote to councils in July 2021, setting out its ambition to make available to county areas the kind of devolved decision-making powers and public funding currently enjoyed by larger cities and urban areas. It's part of the Government's Levelling Up agenda and will see a White Paper published in the coming months.

Councillor Suzie Morley, Leader of Mid Suffolk District Council and chairman of the SPSL, said:

“Suffolk is known for working well together. Whether it’s partners joining forces during the COVID-19 pandemic, pooling public funding for the greater good or developing shared strategic priorities, collaboration is what we’re good at.

“From inclusive economic growth and community safety to climate change and strong communities, we’re focused on collaborative actions that deliver the biggest and best additional benefits for our communities.

“We believe this makes Suffolk a strong contender to work with the Government as part of its Levelling Up agenda.”

It is understood that Suffolk’s approach involving all councils is rare among other expressions of interest being submitted to Government, a point that has been welcomed by the county’s seven MPs.

In an accompanying letter to Robert Jenrick MP, they said:

“We are...writing to wholeheartedly support the vision set out, collectively, by Suffolk County Council and all of Suffolk’s District and Borough Councils. We believe this unity of purpose behind taking the next step in devolution through a County Deal cannot just help persuade you that we should be in the vanguard of the next stage of devolution, but also that Suffolk can use such a deal to deliver better services locally.

“This is not a recent or short-lived view. For many years local leaders in Suffolk at all levels have worked more closely together and have put forward constructive propositions for further improvements. We hope to work with you on your forthcoming White Paper to show that strong local leadership and strengthened local governance can deliver better.”

Suffolk homeowners can cut carbon emissions as successful solar panel buying scheme returns

On August 25th it was announced that Suffolk residents will come together to invest in renewables through a group-buying scheme for solar panels and battery storage.

Solar Together Suffolk, in conjunction with Suffolk County Council, helps homeowners feel confident that they are paying the right price for a high-quality installation from pre-approved installers.

This innovative scheme builds on three years of the highly successful Solar Together programme run in Suffolk. Since 2018, the scheme has installed solar panel systems in 1,028 households across the county. On average, homeowners have saved 33% on installation costs, £263 on energy bills in year one, and stopped harmful carbon emissions entering the atmosphere.

Suffolk residents have until 27 September 2021 to register their interest, for free and with no obligation, to join the group-buying scheme to have solar panels installed at their home. Not only does Solar Together Suffolk offer solar panels, but also optional battery storage and retrofit battery storage for residents who have already invested in solar panels.

How does it work?

- Until 27 September: Householders can register to become part of the group, for free and without obligation, at www.solartogether.co.uk/suffolk
- 28 September: Pre-vetted UK solar PV installers participate in an auction. They can offer competitive pricing as the volume and geographic concentration makes it possible for them to realise greater efficiencies, which they pass on with lower prices for installations.
- After the auction, registered households will receive a personal recommendation which is specific to the details they submitted in their registration.
- If they choose to accept their recommendation, the specifics of their installation will be confirmed with a technical survey after which a date can be set for the installation of their solar PV system.
- Telephone and email helpdesks are on-hand throughout the whole process which, together with information sessions, will allow households to make an informed decision in a safe and hassle-free environment.

Suffolk County Council brings [Solar Together Suffolk](#) to residents as part of the Suffolk Climate Change Partnership, on behalf of all of Suffolk's local authorities. This is in partnership with independent experts iChoosr to make the transition to clean energy as cost effective and hassle-free as possible. Across the UK, iChoosr has delivered almost 5,000 installations to date and over 80,000 tonnes of avoided lifetime carbon emissions.

Marie-Louise Abretti, iChoosr UK Solar Manager added:

“The Solar Together group-buying scheme offers a simple process and the reassurance of a trusted and vetted installer for residents of Suffolk who are looking for ways to reduce their carbon emissions, save on energy bills and increase their independence from the grid.”
