

## **Speedwatch Yearly Report - May 2022**

The Community Speed Watch Team have been busy again this year. There are still only two members of the team but we get out as often as we can.

This year the Community Teams of Suffolk and Norfolk have been combined this means that the vehicles from both counties can be reported should they be caught speeding in either area.

The reporting system on line has been improved making it easier for data to be entered and for letters etc to be sent to offenders. The CSW team at head office also compile a rundown of the success of each local group.

The 'icing on the cake' this year was the issue of new, more efficient and lighter speed guns make the job easier.

If anyone would like to join our team please let us know.
